

Fullstack developer with 5 years of experience in prototyping, coordinating, coding and delivering a wide variety of responsive web projects across different industries.

Passionate about continuous learning, I seek my participation in projects that allow me to secure and expand my skills as a developer, with special emphasis on accessibility.

I thrive in collaborative environments where I can use my communication and interpersonal skills (e.g., networking, negotiation, conflict resolution).

SOFT SKILLS

- Attention to detail
- Teamwork
- Mentoring
- Public speaking
- Adaptability
- Organizational skills
- Time management
- Communication
- Negotiation
- Leadership
- Ease to learn

LANGUAGES

- Spanish - Native
- Galician - Native
- English - C1

TECH STACK

- LANGUAGES

HTML | CSS | Javascript ES6+ | TypeScript | MySQL | PHP
- LIBRARIES

CSS Modules | Tailwind CSS | React | React hooks | Redux | Zustand
Immer | React Query | React Router | React Hook Form | Zod | Shadcn UI
Framer Motion
- OTHERS

Git | Figma | Adobe Photoshop | Jira | Netflix | Supabase | Wordpress

PROFESSIONAL EXPERIENCE

SUBJECT
MATTER
EXPERT

MAJOREL POLSKA - POLAND

2021 - PRESENT

Responsible for process automation and training of new hires on internal company products. This role allowed me to expand my skills in communication and large-scale process prototyping. Among others, my achievements have been:

- Automating and revamping internal processes, resulting in 52% reduction in training time while maintaining the quality of the information provided.
- Developing an automated reporting process for Subject Matter Experts, which resulted in 96% reduction of reporting time.
- 2% improvement in the quality of 5+ final products across different teams and locations by unifying internal product documentations.
- Prototyping and developing an automated reporting system for Team Leaders to calculate financial bonuses, reducing by 78% the time devoted to this task.
- Creating multiple product guides for new hires, adapting technical information for a non-technical audience, resulting in a 40% reduction in their training time.

FULL STACK
DEVELOPER

AACENTIA MULTIMEDIA - SPAIN (REMOTE)

2015 - 2020

Responsible for prototyping, coding and delivering 30+ web projects on different industries. The techstack primarily used was Javascript ES6+, HTML, CSS, jQuery and PHP. Some of my achievements were:

- Developing of a PWA for the Port of Vigo. Among other components, I coded a content editor for internal employees based on a CSS class dictionary (a Tailwind prototype for non-coding employees).
- Prototyping and developing a SaaS for Galchimia. The final product included employee schedule control, absence booking, teams and payroll management.
- Developing a mobile first web app for surveys and data visualization for a public hospital in Barcelona (NDA). The application had a traffic volume of 1000+ monthly users.
- Mentoring new junior frontend developers expanding Javascript, jQuery, HTML, CSS and PHP skills.

EDUCATION

React w/ TypeScript	ui.dev 2023
Advanced Javascript	ui.dev 2023
Modern Javascript	ui.dev 2023
React.js	ui.dev 2023
React - The Complete Guide 2020 (incl. React Router & Redux)	Udemy 2020
CSS - The Complete Guide 2020 (incl. Flexbox, Grid & Sass)	Udemy 2020
JavaScript - The Complete Guide 2020 (Beginner + Advanced)	Udemy 2020
Higher professional training in Web Apps	IES Teis - Spain 2013 - 2015
Higher professional training in Multiplatform Apps	IES Teis - Spain 2011 - 2013
